

MICHAELNOAH

[Michael Noah](#), a singer-songwriter, recording artist, and multi-instrumentalist, has come a long way from singing Beatles songs in public when he was four years old to performing on stage at Ford's Theatre and then on the small screen in *VEEP* and *House of Cards*.

Michael has found his voice through his music, writing over 200 songs. Critics have called his debut album on the Universal Music Group (UMG) label, *Venus and Mars*, ["great" and having an "angelic, choral vibe."](#) Apple Music has featured the title track [Venus and Mars](#) on its [Rising From Singapore](#) curated playlist, while [Constantly](#) and [Among the Goddesses](#) were featured on Spotify's playlist New Music Friday.

Michael's catalogue includes heartstring-pulling ballads, rock anthems, alternative hits, and smooth ambient soundscapes. His music features strong melodies and unusual harmonic and rhythmic structures osmosed from many musical genres and styles.

Michael Noah is represented by Joel Schoenfeld of Mitchell, Silberberg & Knupp, who can be reached at j1s@msk.com. A sampling of his songs can be heard [here](#).
